

S/N 09/411,171

Response to Office Action Dated 2/27/2003

AMENDMENTS TO THE CLAIMS

Please amend the claims of the present application as set forth below. In accordance with the PTO's revised amendment format, a detailed listing of all claims has been provided. A status identifier is provided for each claim in a parenthetical expression following each claim number. Changes to the claims are shown by strikethrough (for deleted matter) or underlining (for added matter).

Claims 1-21 were pending at the time of the Office Action.

Claims 1-21 are rejected.

No claims are amended by the current response.

Please cancel claims 1 - 17 without prejudice.

Accordingly, claims 18 - 21 remain pending.

~~Claims 1 - 17.~~ (Canceled)

Response to Office Action Dated 2/27/2003

- 1 a) a radio toolbar displaying a plurality of radio-toolbar buttons for
2 controlling said first source of streaming media irrespective of the Web page
3 content being browsed, said plurality of radio-toolbar buttons including:
- 4 i) a play button for instructing the Web browser to play the first source
5 of streaming media;
- 6 ii) a mute button for instructing the Web browser to silence the first
7 source of streaming media;
- 8 iii) a volume slider for controlling a volume of the first source of
9 streaming media played over the speaker;
- 10 iv) a radio-stations button allowing user selection of the first source of
11 streaming media; and
- 12 v) an information area displaying information about the first source of
13 streaming media;
- 14 b) at least one explorer bar for providing a display area adjacent to the
15 browser pane, said at least one explorer bar capable of displaying information and
16 allowing user interaction;
- 17 c) a menu bar for allowing user control of the Web browser and the
18 Web page, the menu bar including a plurality of menu entries selected from the
19 group consisting of: File, Edit, View, Favorites, Tools and Help;
- 20 d) a navigation toolbar that allows user navigation of the Web page, the
21 navigation toolbar including a plurality of navigation-toolbar buttons selected
22 from the group consisting of: Back, Forward, Stop, Refresh, Home, Search,
23 History, Print, Mail and Edit;
- 24 e) an address bar identifying an address for the Web page being
25 displayed by the Web browser in the browser pane; and

S/N 09/411,171

Response to Office Action Dated 2/27/2003

1 a status bar showing a current status for the Web page.

2
3 **Claim 20.** (Previously Added) In a computer system having a
4 display device for rendering a graphical user interface of a Web browser
5 displaying Web page content in a browser pane and having at least one speaker for
6 playing a first source of streaming media, said graphical user interface comprising
7 at least one explorer bar for providing a display area adjacent to the browser pane,
8 said at least one explorer bar being registered with the Web browser as a band
9 object, said at least one explorer bar allowing user input regarding the first source
10 of streaming media irrespective of the Web page content present in the browser
11 pane.

12
13 **Claim 21.** (Previously Added) A computer-readable medium
14 having computer-executable components comprising:

- 15 a) a radio server component for playing a radio source of streaming
16 media irrespective of content being displayed in a simultaneously
17 used Web browser;
18 b) an interfacing component for communicating with the radio server
19 component; and
20 c) at least one radio client component communicating through the
21 interfacing component in order to provide instructions to the radio
22 server component regarding the radio source of streaming media.
